ABOUT

I'm an enthusiastic software engineer with around 3 years of experience in software development. I have a proven track record of delivering high-quality Backend and Frontend solutions through a strong understanding of selecting the right tools for the job. Also, has experience in teaching where worked with different age of students.

PRIMARY SKILLS

– Familiar with JavaScript/Node.js, Python, and React

– Strong understanding of full stack development.

 – Experienced in databases: SQL, PostgreSQL, MongoDB, Redis, etc

EXPERIENCE

Hexens, Yerevan — Software *Engineer* (Jul 2023 - Present)

- Spearheaded development efforts, introducing impactful features to enhance product functionality.
- Played a vital role in bug resolution, ensuring a seamless user experience and maintaining product reliability.

- Contributed significantly to the UI team, participating in design strategy and collaborating across departments.
- Designed and implemented new pages, keeping the product's user interface modern and aligned with industry standards.
- Optimized and cleaned codebase, improving overall system performance and code quality.
- Developed reusable components, streamlining development and ensuring consistency.
- Mentored and guided interns, facilitating their professional growth and fostering a collaborative learning environment.

OneGuard Cybersecurity, Yerevan — *Software Engineer*(Jul 2023- Present)

- Led the charge in developing new features that greatly improved the functionality of the product.
- Played a crucial part in resolving bugs to guarantee a smooth user experience and uphold the reliability of the product.
- Made substantial contributions to the UI team by actively engaging in design strategy and collaborating with various departments.
- Crafted and put into action new pages, maintaining a modern user interface that aligns with industry standards.
- Enhanced the overall system performance and code quality by optimizing and cleaning up the codebase.
- Created reusable components, simplifying the development process and ensuring consistency across the system.
- Provided mentorship and guidance to interns, fostering a collaborative learning environment and supporting their professional growth.

Innova IT School, Yerevan — *Front-End Tutor*(Aug 2022 - Oct 2023)

- Instructed and mentored diverse groups of students, ages 18-30, in various aspects of front-end development.
- Conducted comprehensive training sessions on HTML, CSS, and JavaScript, providing a solid foundation for web development.

- Delivered advanced courses on React/Redux, Typescript, and SASS, empowering students with in-depth knowledge of modern front-end technologies.
- Introduced backend development concepts, including Node.js and Express, expanding students' skill sets to full-stack proficiency.
- Successfully managed over four student groups throughout my tenure, adapting teaching methods to individual learning styles.
- Fostered a collaborative and engaging learning environment, ensuring students' understanding and application of programming concepts.

Technolab, Yerevan — *Web Tutor*(Jun 2023 - Sep 2023)

- Instructed and mentored diverse groups of students, ages 12-16, in various aspects of front-end development.
- Conducted comprehensive training sessions on HTML, CSS, and JavaScript, providing a solid foundation for web development.
- Successfully managed over two student groups throughout my tenure, adapting teaching methods to individual learning styles.
- Fostered a collaborative and engaging learning environment, ensuring students' understanding and application of programming concepts.

Matemik NGO, Yerevan — *Web Tutor*(May 2023 - Sep 2023)

- Instructed and mentored diverse groups of students, ages 12-14, in various aspects of front-end development.
- Conducted comprehensive training sessions on HTML, CSS, and JavaScript, providing a solid foundation for web development.
- Successfully managed one student group throughout my tenure, adapting teaching methods to individual learning styles.
- Fostered a collaborative and engaging learning environment, ensuring students' understanding and application of programming concepts.

Freelance, Yerevan — Software Engineer(Aug 2021 - July 2023)

- Independently developed multiple websites from scratch, showcasing proficiency in full-stack development.
- Collaborated with various clients to understand their unique requirements and deliver customized solutions.
- Demonstrated versatility by working on a range of projects, including e-commerce sites, portfolios, and business websites.
- Utilized a variety of technologies and frameworks to create dynamic and responsive web applications.
- Contributed to the success of a startup by providing technical expertise and developing a scalable and user-friendly platform.
- Effectively managed multiple projects simultaneously, ensuring timely delivery and client satisfaction.
